Re: Alberta Soccer Position on Unmanned Aircraft Systems (Drones)

To All Alberta Soccer Members,

The Alberta Soccer Association is currently awaiting the development of a policy on unmanned aircraft systems (drones) usage at sanctioned events from Canada Soccer.

Alberta Soccer is committed to providing a developmental, healthy and safe environment for all of its members. Therefore, until a formal policy can be implemented and enforced, Alberta Soccer's position on drone usage follows the Interim Order set forward by the Government of Canada which, ***"prohibits drones from operating over any person not associated with the operation of the aircraft."***

Any person found in contravention of this position could potentially have action taken against them. Any member who witnesses the violation can contact their regional Transport Canada office or local police who can gather evidence and refer any information to the appropriate authority to take action at the scene.

Sincerely,

Shaun Lowther
Executive Director
Alberta Soccer Association
